Update from Dr. Derek Arrowood, Superintendent, Hamilton Heights School Corporation

Below please find a link to access the updated Hamilton Heights COVID-19 School Re-Entry Guidelines & Expectations Plan, along with direct links to other helpful information related to reopening our school campus and COVID-19. I expect this will be the first of a number of updates to our plan based on new and revised state and federal mandates. The statewide mask mandate goes into effect on Monday and applies to anyone ages 8 and older in any indoor public or business areas and at outdoor public spaces when sufficient distancing can't be maintained. The executive order also requires masks in schools for grades 3 and above by students, teachers, and other employees.

As a reminder, the guidelines, strategies, and protocols are dynamic and can quickly change. Current recommendations from government agencies could become requirements as it has for face coverings. We will keep you informed with any new changes to the current plan when adjustments are necessary or required.

As the first day of school approaches, we know that it will look and feel different than the year before. While we don't know what we don't know, we can continue to proceed the best we can with what we do know. As of today, we are readying our campus to welcome students back to in person classes on Tuesday, August 11. #WeAreHuskies
